

A complete investment solution

A bit about us

For more than 30 years clients have trusted us to protect, manage and grow their wealth. At TrinityBridge we believe that active management, using single or multi-asset class strategies to build diversified fund portfolios, is the best way to achieve returns.

Investment expertise is at the heart of our approach and, with decades of investment experience, our investment professionals work together in a close-knit environment, challenging each other's views and sharing ideas and insights.

Our investment management services

We understand the constant challenges that you face as an adviser. Strict regulation, thousands of investment products to choose from and fast-moving markets make managing your clients' portfolios challenging and time-consuming.

By choosing us as your partner, you can focus on financial advice and wealth planning whilst we manage the investments – we believe that this combination creates the best client experience.

Here is our range of investment management services, underpinned by institutional-quality capabilities.
